

Slipper Clutch

The Surflex, STM & Hinson all aluminium billet anti-slipper clutches are the most complete of all units available on the market. They are all pre-assembled with all hard anodized billet aluminum components. They include hardware for mounting of the basket and an installed throw out bearing. Pre-fitted friction discs are included for extra weight savings, quiet function and longer basket life.

These high quality units is made in Italy & USA. Lightweight slipper clutches help prevent rear wheel lock upon deceleration. The racing version is designed for the abuse and hard launches common in racing. The lighter weight of the clutch improves throttle response and reduces rotating mass.

Slipper clutches are available for the following models:

HONDA CRF 250/450
YAMAHA YZF 250/450
KTM SXF, 250, 450, 525
KAWASAKI KXF 250/450
SUZUKI RMZ 250/450
HUSKY TC/SMR 250/450/510
